## Thank you for your gift

Dear SEWA Norway,

We have received your gift of NOK 112 000 to the Norwegian Cancer Society and wanted to take the time to thank you.

With your donation, we are one step closer to prevent and fight cancer and to improve quality of life for patients and their families.

Norwegian Cancer Society works continuously to improve society's attitude to the prevention and treatment of cancer. We fight cancer locally, nationally and globally through research and preventive measures, information, support, advice and lobbying.  
Our vision is «a life without cancer».

You are truly making a difference for cancer patients by supporting our work through this generous contribution.

Yours sincerely,  
Norwegian Cancer Society

Christine Lager Nesje  
Head of District Oslo  
Norwegian Cancer Society
